July 2023

AWARDS

- **1st place - Games on Web 2024**

Olympic Edition

- **3rd place - Games on Web 2023**

Be green Edition

WORK EXPERIENCE

- **Airbus Operations | Data Analyst/Engineer for MAP A320**

September 2022 - August 2024

Developed a digital control room for the MAP A320, centralizing and transforming data via Skywise and Qlik Sense, and collaborated with teams in Hamburg to ensure data quality, facilitating the adoption of real-time production monitoring dashboards.

- **Airbus Defence & Space | Developer on production tool**

August 2021 - August 2022

Developed and maintained a production tool that centralized data from several sources using Python and Visual Planning API integration, presented it to team leaders for adoption, and created a comprehensive user manual for effective utilization.

SKILLS

- **Data Analysis**

- Data Pipeline, Business Intelligence (Qlik Sense, Power BI), AI

- **Databases**

- Big Data (Hadoop and Analytical Methods for Big Data)
- SQL, PL/SQL, NoSQL, Oracle, MySQL, PostgreSQL, Neo4j, MongoDB

- **Programming Languages**

- Python, Java, C, PowerShell, TypeScript, Visual Studio Code, Eclipse
